

How to recover your login credentials.

Surf to /user/password or click on the request new password tab.

Enter your email account and click the “E-mail...” button.

The screenshot shows a web form titled "User account". At the top, there are three tabs: "Create new account", "Log in", and "Request new password". The "Request new password" tab is selected. Below the tabs, the form has a label "Username or e-mail address *" and a text input field containing "MyEmail@email.com". Below the input field is a button labeled "E-mail new password".

You should see the “Further instructions have been sent to your e-mail address” message appear.

If you get any other message and do not get the automated e-mail (as seen below) please email us.

A request to reset the password for your account has been made at International Society for Diatom Research.

You may now log in by clicking this link or copying and pasting it to your browser:

<http://>

This link can only be used once to log in and will lead you to a page where you can set your password. It expires after one day and nothing will happen if it's not used.

Click the one-time login link that you received in your e-mail inbox. This will open a webpage giving you access to the site.

Reset password

This is a one-time login for _____ and will expire on Tue, 05/08/2018 - 07:02.

Click on this button to log in to the site and change your password.

This login can be used only once.

[Log in](#)

You are now logged in, before doing anything else please set the password fields and click save at the bottom of the page.

A green-bordered box with a checkmark icon on the left. The text inside reads: "You have just used your one-time login link. It is no longer necessary to use this link to log in. Please change your password."

On this page you can also see your username which you will need to login in the future.

In my case this is the same as my email, if this anything else please make a note of it.
